

# California Proposition 65

**Warning:** Some metal products like brass and copper may contain elements or chemicals known to the State of California to cause cancer, birth defects or reproductive harm. These include but are not limited to Chromium, Cobalt, Lead, and Nickel.

Proposition 65 is a requirement by California state law which requires businesses to disclose any chemicals that “cause cancer, birth defects or other reproductive harm”. Equally, Proposition 65 prohibits a business from “knowingly discharging significant amounts of listed chemicals into sources of drinking water.” This declaration is to be presented when and if a business is aware or becomes aware of the list chemicals. Southern Copper is supplying this letter as product supplied may contain elements listed within Proposition 65.

For more information visit [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

In general, the products supplied by Southern Copper & Supply in solid form comply to a nonhazardous standard by OSHA regulations. That said, the following applications can potentially cause a HEALTH HAZARD.

For information regarding health hazard and compliance conformity review the applicable **Safety Data Sheet**.

## HEALTH HAZARD WARNING

Welding, melting, grinding, machining or cutting this product may cause hazardous fumes and dust which can cause skin, eye, nose and throat irritation or can cause chills by overexposure. Excessive exposure may cause serious chronic lung disease, systemic poisoning and flu like symptoms.

Maintain airborne concentrations below the TLV limit by using general or local exhaust ventilation. Use NIOSH approved respirators if airborne concentrations exceed the TLV limit. Use approved PPE work gloves and safety glasses. Use approved PPE respirators when grinding, as well as, protective body covering when welding.
