WELDING MACHINE CONTROL CONTACTORS

For use primarily in resistance welding controls CMW maintains standard stocks of five contacts listed. They consist of CMW°353 material, a predominately copper alloy pocessing arc resisting properties.

CMW°353 material has the ability to interrupt the current in a short time with minimum arc hangover. Because of the arc resistant characteristics of the metal, only the desired number of cycles of current are transmitted to the welding machine. Uniform welding quality is obtained because no additional current passes through the control, since CMW° 353 material tends to prevent the arc from restriking.

Contactor Part No.	Overa ll Length A	Width B	Height C	D	E	G	Hole Dia. H
16-1303	1-3/4	1	1-3/8	1/2	1/2	7/16	7/16
16-1304	1-5/8	7/8	1-1/4	3/8	7/16	7/16	11/32
16-1306	1-5/16	3/4	1-1/16	5/16	3/8	3/8	11/32
16-1307	1-1/2	1	1-1/2	3/8	1/2	1/2	11/32
16-1309	1-1/4	7/8	1-1/4	3/8	7/16	15/32	25/64

ACCESSORIES, REAMERS, WATER HOSE, HOSE CONNECTOR, HOSE COUPLING & HOSE CLAMP

REAMERS

High speed steel reamers to rework worn tapers in holders are available for standard 4, 5, 6, 7 RW, and 4, 5, 6 RW cap tapers. Hollow reamers make it possible to recondition worn holder tapers without removing the water tubes.

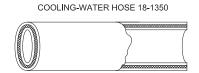

Reamer Part No.	Taper Type	Type	
18-1321	6 RW	Hollow	
18-1322	4 RW	Not Hollow	
18-1323	5 RW	Hollow	
18-1324	7 RW	Hollow	
18-1327	4 RW (Cap taper)	Not Hollow	
18-1328	5 RW (Cap taper)	Not Hollow	
18-1329	6 RW (Cap taper)	Not Hollow	

WATER COOLING HOSE (PART NUMBER 18-1350)

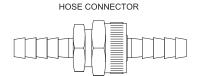

CMW water-cooling hose is the finest available. Made by a prominent hose manufacturer. This hose is 3/8 diameter which properly fits the water nipples on CMW holders. It is available in 50-foot coils or can be cut to length.

HOSE CONNECTOR FOR 3/8 HOSE (PART NUMBER 18-1351)

This hose connector, placed in water-cooling hose line, facilitates quick change of holders or dies. The male and female ends of these connectors should be reversed in the inlet and outlet lines to eliminate confusion in changing setups.

QUICK CONNECTIVE COUPLING ASSEMBLY (PART NUMBER 18-1352)

HOSE COUPLING

The plug of this coupling can be mounted on CMW holders converting them for quick hose changes. An automatic water shut-off valve is built into the coupling.

MALE PLUG (1/8 MALE PIPE THREAD) 18-135200-2

HOSE CLAMP (PART NUMBER 18-1353)

This aircraft type hose clamp gives positive tightening action which eliminates water leakage. It is easy to install and remove from standard 3/8 water hose.

CAP ELECTRODE EXTRACTOR FORK

CAP ELECTRODE EXTRACTOR FORK PART NO. 18-1381-1 FOR 5 RW CAPS PART NO. 18-1381-2 FOR 4 RW CAPS PART NO. 18-1381-3 FOR 6 RW CAPS

These hardened steel wedge type forks will make the removal of electrodes caps quick and easy. They can be used on both male and female caps.

AIR POWERED ELECTRODE EXTRACTOR

AIR POWERED ELECTRODE EXTRACTOR PART NO. 18-1382-1 FOR 6 RW ELECTRODES PART NO. 18-1382-3 FOR 5 RW ELECTRODES

This high quality air powered electrode extractor comes in two standard sizes for extracting 5 RW and 6 RW male and female cap and standard straight electrodes. Air pressure recommendations suggested between 85 PSI minimum and 100 PSI maximum. Ideal pressure is 90 PSI. Standard 3/8 diameter air nipple and quick change plug included with extractor.

PNEUMATIC POWER HANDLE ELECTRODE DRESSER PART NO. 18-1310

Light weight and rugged construction, this CMW Pneumatic Power Handle requires a clearance of only 1-1/2" with a standard ring and 2" with an extended ring. In most situations this allows dressing of electrodes without removal from the welder. Operating at a cutting speed of 1200 rpm, it enables the operator to dress electrodes quickly and accurately. Cutters and guide rings are easily replaced. These must be matched to the electrode nose and are selected from the chart below.

CMW Electrode Dresser 18-1310 is supplied without blade holder, ring, and cutter blade. When ordering, specify the "Kit" appropriate for your dressing needs as selected from the table below. "The stud" furnished with the kit is not required when using the Pneumatic Power Handle. It may optionally be used, but will increase the clearance required on the welder for dressing. Additional special cutters can be furnished upon special request.

These kits may also be used for cap electrode dressing.

ELECTRODE DRESSER PART NUMBER 18-1307

ELECTRODE DRESSER PART NUMBER 18-1307

The Electrode Dresser quickly removes the "mushroomed" portions of spot welding electrodes and renews 4 RW or 5 RW taper, dome or pointed electrodes with the proper operating contour. The Electrode Dresser re-machines both upper and lower electrodes to the correct profile "On The Job" - provided both are identical - without removal of the electrodes from their holders. Dresser is 10" long, with a replaceable cutter of hardened tool steel.

ELECTRODE DRESSER PART NUMBER 18-1370

In certified resistance welding and where clean, strong welds are necessary on a production basis the Maintain-A-Contour Dresser pays big dividends. Its use not only assures consistent quality welds in aircraft metals, but saves valuable production time in all dressing operations.

The Maintain-A-Contour Dresser is supplied with a spool of 240 grit cloth, and one set of (2 per set) precision ground contour plates. Specify the size radius (2" - 3" - 4" - 6" - 8" - 10") plates required.

Plates with special radii are available on special request. The abrasive cloth is standard 2" wide.
