

## New Year, New Look.

In memoriam of the "back to school" season, we decided it was time to change up our look to impress all of the new chicks at school. We know what you're thinking, but don't panic! While we look refreshed and up to date, all the-same-old info is still available on our [website](#).

Since we took the time to re-do our website, we heavily encourage everyone to take a look. Maybe we offer alloys that you didn't know we stock—or maybe you simply want to put a face to a name. Either way, our website has you covered.

## Back-To-School Shopping

Keep in mind, back to school shopping doesn't end with new pencils and a backpack. With a broad range of alloys and machined parts in stock, and CNC capabilities in house, SCS is here to help stock your household with whatever is needed to help you succeed through the second half of 2023.
